Advertising Index

The Advertisers' Index is published as a convenience to the reader. Care is taken to make the index accurate, but *InTech* assumes no responsibility for errors or omissions. Please note new addition of web addresses. *InTech*'s advertisers would be pleased to provide additional information about their products and services. To obtain further information, simply circle (on one of the Reader Service Cards) the number that appears to the left of the advertiser's name in this index, or call the advertiser directly. Companies highlighted are also 2001 ISA Directory of Instrumentation advertisers.

2001 *InTech* article title index

January
New economy distracts many but can't thwart genius 38
2001: Worries galore, great toys 46
Gas transmission compressor station delivers 50
Investigation of Firestone tires focusing on fatigue 54
B2B exchanges: Blessing or curse? 56

February
Sleeping technogiants are the MEMS 40
It's not the humidity; it's the HEAT! 44
Shoot-out at the Ethernet corral 48
Computerheads romp past geeks 52

March
Remote wireless presence in field device management 40
Seeing the light 44
Cogeneration in Europe leads balanced electricity policy 48
Next-generation Web tools for control 52

April
Unshackled 40
Experts agree: Mass customization is almost here 45
Modern batch systems accelerate with business 48
Satellite SCADA for treatment plants 53
Repeatability of online natural gas analysis 56
Striking up communications with factory-floor Ethernet 61

May
Hazard analysis and risk assessment impact each device 40
Better robots through clean living 44
Critters kindle military curiosity 48
Reject the politics of proprietary solutions 50

June
Security problems keep increasing 42
Intelligent robot watchdog looks for leaks 46
A universal approach for hazardous-area classifications 51
In the line of fire 54
Division of labor takes center stage 56
A question of architectural advantages and limitations 60
Wireless technology a hot topic at ISA 2001 64

July
Manufacturers prepare for summer of shortages 36
Life's a batch … 40
Document all maintenance activities 44
Engineers feel the heat 48

August
Quo vadis industrial Ethernet? 34
Explosion protection for optical radiation in hazardous locations 38
Understanding flowmeter specifications 42
To SCOR, practice makes perfect 45
Process out of control 52

September
Off to a fast start 46
The generation gap 50
Replacement heart begins clinical trials 63
Today's technology purveyors predict tomorrow's giant leaps 65
Taking a giant e-manufacturing step 67
Handhelds build industrial-strength database 73
Worldwide e-collaboration taking hold? 79

October
Gamma radiation, fiber optics, and dopants meet at the mill 34
Laser ultrasonics hit the next level 38
How to benefit from the code changes for hazardous locations 42
Manufacturers' needs not changing— but acronyms are 45
Cost-saving 'enablers' speed networking 49

November
Surface acoustic waves to the mission critical 30
ISA 2001 making sense of a changed world 34
Physical principles underlie the four common methods 39
XML-based EAI: Revolution, not evolution 43
Linux for real-time PLC control? Slower is easier. 49

December
Leveraging Internet protocol without breaking the bank 20
Assessing the e-threat to manufacturing 24
Variable-frequency drives live large 26
Windows users eye 'five 9s' nirvana 29
